Ref. No. 278/61.

Dated the 16th August, 1947.

Prelictions for the 58th year of age: from 3rd August, 1947, to 2nd August, 1948 (with monthly forecasts).

The period of twelve months under consideration is operated upon generally by mixed planetary influences, rather favourable both for spiritual and pecuniary affairs yet definitely bad for health and for affairs concerning domestic life, as will be seen from the following dum-brated paragraphs:-

of Jupiter by Secondary Direction points to increase of spiritual tendency, increased devotion and non-attachment for the world, attentions to the higher side of Yoga and philosophy, desire for visiting distant places of pilgrimage, journey, lecuniary advantages and substantial gains through disciples, especially towards the latter part of the year.

110/4 14- 5-46- ru 40,692 2000769 अधानं क्रम प्रमारेमः - यादियः राम वार्ति ३ मा गर समार अवरि ० स्वीवार वाराम अवरि द्वारो तारम रामे परा के. दशमा काल करात । कि भीनीर अने अरोरंड्र ते के न्य भी में हा यह अंका शा- में हा न भ निम्न पूर्वा लाड्पड़ा:-नम दिला मिर यह आहे। जनम नित्त ग्रे मराद्या वर्ष १ मन साम मामनी काराववार्ग्डली Hin: 761: यार २६ 34:-

24140, 31 -- 22 - 6 \$111.

- Sun throughout a najor of the year not only keeps the health below per, but also produces chronic or lingering bad health of a herassing character, with aggravation of intestinal complaints, tendency to costiveness or constriction of the bowels, latulance and acute nervous complaints, loss of Vitality and chronic ailments are indicated, yet we do not apprehend actual danger to life this year.
- (3) Increase of religious and spiritual reputation, popularity among disciples and heavy gains through their medium are vouchasfed; increase in the number of disciples and plans for purchasing additional landed property for religious or altruist a purposes, increase of spiritual status, etc. His reputation will spread for and wide.
  - (4) The sextile aspect of the planet

venus to its own radical place indicates temptations from members of the opposite sex, which
should be powerfully resisted during the period.

Amativeness or succumbing to sexual temptations
should be guarded against, as Venus rising
invariably tends/corrupt one's morals. Dealings
with the opposite sex should be conducted with
the utmost possible caution.

The adverse Lunar aspects to Mars and Saturn, measuring to the period from about November to January (1948) threatens irritability of temper, tendency to disputes and enmity, ralicious activities and propa--ganda through inimically-inclined persons, injury through enemies, aggravation of u-ealth troubles, liability to physical injury, hurts or accidents, set-backs in law-suits or acute legal verations for a time, temporary financial strains and other difficulties, suffering of a brother or sister, domestic troubles and other un--fortunate developments of a tantalising character. The same of the sa

The financial side will not be seriously affected, however. Guard against treachery or violence on the part of sacries, and also against physical hurts and craidants.

- plans for undertaking a long pilgrimage and for shifting the place of residence personently to some distent racred place of a noted character. Substantial funds will be forthcoming for carrying out these projects. Additions or alterations in the existing buildings are shown and plans for acquiring further landed property will be put into action.
- (7) The spring of 1948 should indicate increase of activity in connection with religious works and the supervision of monas—teries or temples; Journey or change of place will be contemplated and an extensive tour programme will be chalked out. At the same time, some sudden or unforeseen developments in affairs

affairs will transpire round about the month of March.

Subject to the above general obser-vations and supplementary thereto, the follow-ing are the monthly forecasts:-

August (1947): Circumstances of the preceding one month continue potently and the month is not eventful. Health below par; existence of legal complications and enemies, but affairs drift on in the usual manner and no important developments will follow.

September: - Same as the preceding month.

but the bed tendencies now come to the fore and
the existing troubles are slightly accentuated.

The health is depressed. The latter part is
fairly auspicious for dealings with females.

October: - A good month financially; good for success in litigations or contentional matters, success of plans and launching of new s-chemes. Slight domestic worries, ailing of sister or of a female disciple, yet easy gains.

November and December: Not bed finan-cially, but the effects lescribed under item
(5) supra now appear, so that affairs should
be conducted with vigilance. The health suffers.
Waltiferious worries and engagements.

December, with a preponderance of bad effects.

February: - This should be a mixed time, tending to produce domestic worries, siling of brother or sister, trouble or anxiety concerning a particular disciple and similar had effects.

Bed for dealings with the opposite sex.

March to April: - Pera (7) now begins to act. A very busy and active time, yet some unforeseen developments of an awkward nature transpire. Over-work or strain reacts upon the health. The finances improve, however.

May to June: - Bad health persists; digestive and wind complaints, desire for journey, bad for the health of a female relation. Otherwise, the period is of a mixed character.

July: - Minor worries of a harassing nature, diseases in the family, thoughts diverted from spiritual to worldly matters, tendency to journey or change. A more or less unsatisfactory at state of effairs.

N.B. We can prepare a full life reading for you for the rest of your life, if necessary, at a cost of Rs. 30/- only.
